## 产品品类 / Product Categories

|                                    |                                                                                                                |
|------------------------------------|----------------------------------------------------------------------------------------------------------------|
| <b>圆形连接器</b><br>Circular           | MIL-DTL-38999、MIL-DTL-5015、M8/M12、IP67/IP68 防水型<br>High protection, vibration-resistant for harsh environments |
| <b>矩形连接器</b><br>Rectangular        | D-Sub、重载连接器 (Heavy Duty)、模块化组合<br>High pin density, modular, for cabinets and panels                           |
| <b>射频连接器</b><br>RF                 | SMA、BNC、TNC、N 型、7-16 DIN、2.92mm<br>Low loss, high frequency, stable impedance                                  |
| <b>板对板 / 线对板</b><br>Board-to-Board | 0.5/0.8mm 间距板对板、FPC/FFC、排针排母、IC 插座<br>Compact SMT and plug-in for high-density boards                          |
| <b>端子与接插件</b><br>Terminals         | 压接端子、刺破端子、护套胶壳、车规连接器<br>Crimp and IDC terminals with mating housings                                           |
| <b>光纤连接器</b><br>Fiber Optic        | LC、SC、MPO/MTP、跳线与适配器<br>Low insertion loss for data centers and high-speed links                               |

## 服务与支持 / Services

|                              |                                                                                   |
|------------------------------|-----------------------------------------------------------------------------------|
| <b>选型与替代</b><br>Selection    | 原厂型号直供、进口替代选型、样品申请<br>OEM supply, drop-in alternatives, sample requests           |
| <b>BOM 配套</b><br>BOM Kitting | 整单物料清单报价与配套供货<br>Full BOM quotation and kitting                                   |
| <b>质量与溯源</b><br>Quality      | 授权渠道、原厂包装、批次可查、到货检验<br>Authorized sourcing, lot traceability, incoming inspection |
| <b>交付</b><br>Delivery        | 本地化仓储、常用型号现货、紧急订单快速响应<br>Local stock, fast response on urgent orders              |

## 联系方式 / Contact

|                                                                                                 |                                                                                                 |
